Subject: RE: NAS Workshop: Review of Advances Made to the IRIS Process

Tina,

OCSPP would be very interested to know exactly what it is the NAS will be reviewing and what the charge questions will be.

Thanks,
Nancy

Subject: NAS Workshop: Review of Advances Made to the IRIS Process

Dear Colleagues,

I wanted to let you know that the NAS has announced (below) the public workshop/meeting to evaluate IRIS Progress which will be held February 1-2, 2018.

Please let me know if you would like additional information.

Thanks and I wish you all a peaceful Thanksgiving Holiday.

Tina

Upcoming Workshop: Review of Advances Made to the IRIS Process

A committee of the National Academies of Sciences, Engineering, and Medicine will hold a workshop on **February 1-2, 2018, in Washington, DC**, to review advances made to the Integrated Risk Information System (IRIS). At the request of the US Environmental Protection Agency (EPA), this committee will assess changes that have been implemented (or plan to be implemented) by EPA in response to recommendations made in previous National Academies reports, such as *Review of EPA's Integrated Risk Information System (IRIS) Process* and *Review of the Environmental Protection Agency's Draft IRIS Assessment of Formaldehyde*. This public workshop will serve as a venue for EPA to present its changes to the IRIS program and to provide an opportunity for stakeholder input on the changes to the program. The committee will base its assessment on information received at this workshop. Registration is required to attend.
